Coding Errors = Lost Revenue

The expertise you need

How much revenue is your practice losing due to coding errors? Radiation Business Solutions' comprehensive coding process catches errors that affect your practice's bottom line.

Let RBS work for you

Subject matter experts

- ▶ Our coders stay up to date on annual coding, policy, and technology updates set forth by AMA, CMS, and ASTRO guidance so that you don't have the added expense of salary, benefits, training, or education.

Strong relationships

- ▶ Our US-based dedicated coders will take the time to build a relationship with you and your staff, learning your individual practice needs and answering your specific coding questions.
- ▶ Through our expertise and communication, we take the burden of coding and charge review off your practice so that you can focus on treating patients.

Gatekeepers

- ▶ RBS coders review the charges listed line by line, ensuring compliance and accuracy, closely monitor for patterns in deficiencies, and assist your staff in implementing corrective actions.
- ▶ RBS coders excel in identifying incomplete documentation and documentation errors to allow for initiative-taking correction.
- ▶ The coding team doesn't just perform checks and balances but strives to educate their clients along the way. Discrepancies found are reported back to allow for correction prior to claim submission.
